ZOHO CREATOR PAGE BUILDER

Patient Appointment Booking - Command Center Page

Aim:

To design and build a single internal **"Command Center"** Page in Zoho Creator for the existing **"Patient Appointment Booking"** application, demonstrating the correct usage of all eleven Page Builder elements (Panel, Board, Chart, Gauge, Search, Form, Report, Snippets, Button, Widgets, and Viewer) so that clinic receptionists and medical officers have one unified workspace to monitor, manage, and act on patient booking data.

Page Elements Used

Page Element Type	Element Name
Panel	Command_Center_Main_Panel
Board	Consultation_Status_Board
Chart	Department_Popularity_Chart_Widget
Gauge	Daily_Appointment_Target_Gauge
Search	Patient_Search_Bar
Form	Quick_Counter_Booking_Form
Report	Full_Patient_Appointments_Report
Snippets	Clinical_Intake_Checklist_Snippet
Button	Send_SMS_Reminder_Button
Widgets	Doctor_Availability_And_Fee_Widgets
Viewer	Medical_Record_And_ID_Viewer

Page Layout (Section-wise)

Section 1: Overview Strip

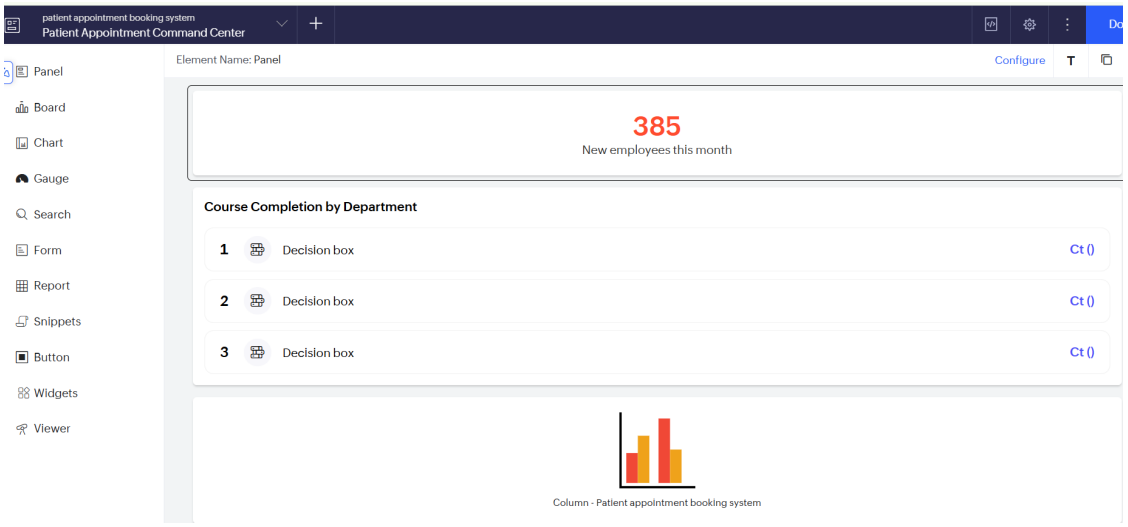

- **Daily Appointment Target Gauge** (Gauge element): Visualizes progress toward daily patient consultation capacity.
- **Patient Search Bar** (Search element): Instant lookup for active patient IDs, names, or phone numbers.
- **Department Popularity Chart Widget** (Chart element): Dynamic visual bar graph showing booking volume per clinical department.

Section 2: Processing Workspace

- **Send SMS Reminder Button** (Button element): Triggers instant automated appointment alerts to checked-in patients.
- **Consultation Status Board** (Board element): Live drag-and-drop board tracking patient transitions across clinic stages.

Section 3: Detailed Data

- **Full Patient Appointments Report** (Report element): Embedded comprehensive list report for detailed row-level management.

Section 4: Reference & Quick Actions (Sidebar)

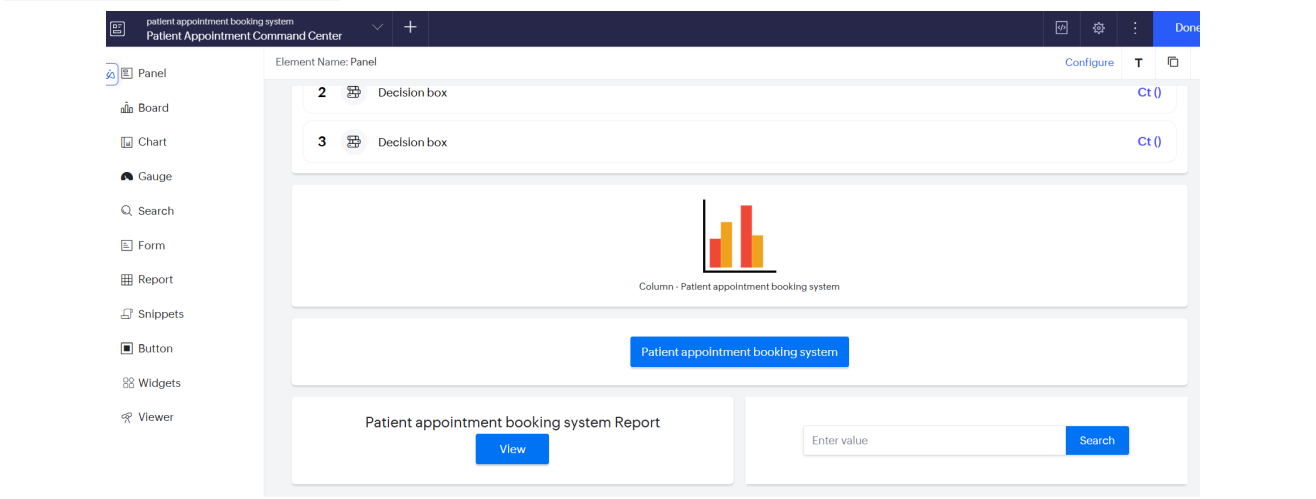

- **Clinical Intake Checklist Snippet** (Snippets element): Custom ZUG/HTML snippet displaying vital sign checking guidelines.
- **Medical Record and ID Viewer** (Viewer element): Embedded PDF/Image previewer for verifying patient identity and past prescriptions.
- **Quick Counter Booking Form** (Form element, expandable tab): Embedded modal form for walk-in patient registrations.

Section 5: Operations Strip

- **Doctor Availability and Fee Widgets** (Widgets element): Custom HTML/JS widgets showing doctor duty shifts and consultation rates.

*Note: All sections above are laid out within the **Command_Center_Main_Panel**, which serves as the single structural Panel wrapping the full page.*
